

## SADIQI AESTHETICS

# About us.

Sadiqi Medical Centre Aesthetics is the cosmetic arm of Sadiqi Medical Centre – offering regenerative treatments led by a GMC-registered Doctor.

We focus on natural-looking results, honest expectations, and treatments that work with your body – not against it.

### WE TREAT

- Hair** Thinning, receding hairlines
- Skin** Texture, tone, fine lines
- Beard** Patchiness, density

## SADIQI AESTHETICS

# Exosomes.

*Next-generation regeneration.*

Purified messenger particles derived from stem cells, carrying highly concentrated regenerative signals to the target area.

More potent than PRP per session. Preferred where faster results are needed, or where PRP alone hasn't delivered the desired outcome.

### PRICING

**Single session** £250  
Exosomes for hair, skin or beard

**Exosomes + Microneedling** £279  
Combined session for deeper absorption

**Course of 3** £675  
3 × Exosome – recommended starter course  
*Save £75*

**Course of 4** **BEST VALUE** £850  
4 × Exosome – best long-term value  
*Save £150*

## PRP THERAPY

# PRP Therapy.

*A natural reset, drawn from your own blood.*

A small sample of your blood is drawn, then spun in a centrifuge to concentrate the platelets — the part of the blood rich in natural growth factors.

These growth factors are then reintroduced exactly where you need them most, signalling your body to repair and regenerate.

## PRICING

**Single session** £150

PRP for hair, skin or beard

**PRP + Microneedling** £179

Combined session for deeper absorption

**Course of 3** £399

3 × PRP — recommended starter course

*Save £51*

**Course of 4** **BEST VALUE** £499

4 × PRP — best long-term value

*Save £101*

## HOW IT WORKS

# The process.

*Both treatments follow the same gentle path.*

## 01 Consultation

We assess your concern, medical history, and discuss realistic expectations.

## 02 Preparation

A small blood sample is drawn for PRP, or your exosomes are prepared.

## 03 Treatment

Targeted injections or microneedling to the treatment area.

## 04 Recovery

Mild redness for 24–48 hours. Aftercare guidance provided.

## 05 Results

Most clients see initial results in 4–6 weeks, with continued improvement over months.

## WHICH IS RIGHT FOR ME?

# PRP vs Exosomes.

## PRP

*From £150*

- Natural — from your own blood
- Doctor-led safety and consultation
- Course of 3–4 for best results
- Most established option

## Exosomes

*From £250*

- Higher concentration of signals
- Faster, more pronounced results
- Premium choice — fewer sessions
- Excellent stand-alone or with PRP
