ABOUT US

Sadiqi Medical Centre is a doctor-led clinic in East London offering safe, gentle microsuction ear wax removal. Every procedure is performed by a GMC-registered Doctor using the latest medical equipment.

How It Works

Quick, painless, and effective.

- 01 Consultation**
We assess your ear health and discuss your symptoms in detail.
- 02 Examination**
A detailed otoscopic examination of both ear canals.
- 03 Microsuction**
Gentle suction safely removes wax – without water or syringing.
- 04 Aftercare**
Personalised advice to maintain ear health long-term.

APPOINTMENT TIME

15-30 minutes

Same-day appointments
often available.

Why Microsuction

Safer, gentler, more effective.

- ✓ Improves hearing clarity
- ✓ Relieves blocked-ear discomfort
- ✓ Prevents tinnitus and ear infections
- ✓ No water – safe for sensitive ears
- ✓ Quick procedure, immediate results
- ✓ Suitable for hearing aid users

Signs you may need treatment

- Muffled or reduced hearing
- A blocked or full feeling in the ear
- Ringing or buzzing (tinnitus)
- Dizziness or earache
- Difficulty using hearing aids

Aftercare

Looking after your ears.

After microsuction, your ears may feel a little more sensitive for 24 hours. To protect your hearing in the longer term:

- ✓ Avoid cotton buds and ear candles
- ✓ Keep water out for 24 hours
- ✓ Use olive oil drops if needed
- ✓ Check-up every 6-12 months

The Doctor-Led Promise

- GMC-registered Doctor
- Latest medical equipment
- No water, no syringing
- Calm, private room
